SUMMARY

Innovative software developer with expertise in front-end technologies and a passion for creating interactive and user-friendly web applications. Proficient in HTML, CSS, and JavaScript, with a strong focus on enhancing user experience and responsive design. Enthusiastic about learning new technologies and applying them to solve real-world problems.

PROJECTS

Carousel Slider with Blur Effects

github.com/sagarsinghthakur002/Carousel-Slider-Blur-Effects · June 2024 –July 2024

· **Objective:** Develop a carousel slider with stylish blur effects to enhance visual appeal.

· **Technologies Used:** HTML for structure, CSS for styling and transitions, JavaScript for functionality.

· **Key Features:**

 · Smooth transitions between slides.

 · Blur effects applied to images for a modern look.

 · Responsive design for optimal performance across devices.

Tic Tac Toe Game

github.com/sagarsinghthakur002/aalu-plus-game · March 2024 – April 2024

· Interactive gameplay allowing users to click and place X or O.

· Game logic to detect win conditions and highlight the winning line.

· Responsive design for seamless experience on desktop and mobile.

· Reset functionality to start a new game with a button click.

Expanding Image Gallery

github.com/sagarsinghthakur002/Expanding-Image-Gallery · January 2024 - February 2024

· Created a sleek and dynamic image gallery using HTML and CSS, enhancing visual appeal through interactive elements.

· Utilized CSS transitions and animations to provide a smooth user experience.

· Implemented responsive design techniques for the expanding image gallery, ensuring seamless functionality across various devices and screen sizes.
